

Hello, My name is Tracie Ford and I am the laboratory manager for Wallis Dermatology Associates in Longview, Texas. We have an immediate job opening for a full-time histotech. We are in need of someone with their HT/HTL that can work independently in a paraffin lab performing routine tasks as well as grossing of small skin specimens. We also have a full-time Mohs lab that will need a technician that is able to cut frozen sections and stain slides according to our written protocol. If you are someone that is interested in this position, please reach out to me. We offer full benefits that include paid time off, medical insurance, dental and vision as well as a variety of supplemental policies. We have 401k and retirement plans as well as uniform allowance. We work 5 days a week typically 6:30 to 3:30 and only a half a day on Fridays.

Please email me your resume or give me a call. [tford@wallisderm.com](mailto:tford@wallisderm.com) or 903-235-9269.
